Sandeep Beesu
Digital Marketer

WORK WITH ME

ABOUT *ME*

I began my career in the dynamic field of Mechanical Design Engineering. However, during the COVID-19 pandemic, I discovered a strong interest in business and entrepreneurship, which led me to explore and pursue Digital Marketing. Since then, I've been combining technical precision with creative strategy to help brands grow online.

Industries I Have Worked With So Far

Recruiting: Built employer brands, created recruitment marketing content, and managed campaigns to attract qualified talent for recruitment firms.

EdTech: Led social media campaigns, content marketing, and audience engagement for education technology brands.

Software: Ran digital advertising and SEO projects for ERP and software firms to boost lead generation and online visibility.

Fashion Industry: Promoted fashion brands/products through influencer marketing, visual content, and targeted ads to drive brand awareness and sales.
